167 Amp

This lightweight generator is comparable in price and agility to our Honda putt-putt generators. It is excellent as a primary power source for smaller jobs, as well as for specialty power. Specifically designed for the film industry, think of it as a putt-putt that can run a 12K!

- Single Phase
- 4-Hole Cam-Lok
- Dual Edison Breakered Courtesy Outlet
- Lister-Petter Turbo Diesel 4-Cylinder Engine
- Full Electronic Control & Adjustment

A variety of suitcase and putt-putt generators are also available.
